REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are limited to a combination of nucleating agents wherein the lithium phosphate is combined with a lithium fatty acid salt and fatty acid salt of a divalent metal. The closest art is considered to be US 6,319,991 to Okayama et al. This patent shows a vast array of nucleating agents in columns 8-10. Herein lithium phosphates and lithium salts of fatty acids are mentioned, see column 9 lines 7+ and column 10 lines 10 -15. There is no mention of a fatty acid salt of a divalent metal meeting the claim limitation. Further, the mere mention of lithium phosphates and lithium fatty acid salts do not render their combination obvious. The specific selection of 2 of the 3 claimed elements requires significant hindsight. The results in the specification are sufficient so as to show criticality for the claimed compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Peter D. Mulcahy/ whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.
